Cover Image: Projection visualising the blend of the gas surface density and mass-weighted temperature of our new AGN feedback model XFABLE (from Bigwood et al. 2025, MNRAS submitted. Pg. 38)

Kavli Institute for Cosmology, Cambridge, University of Cambridge,
Madingley Road, Cambridge CB3 0HA, United Kingdom. www.kicc.cam.ac.uk

The background of the entire page is a Cosmic Microwave Background (CMB) fluctuation map. It shows a complex pattern of temperature variations across the sky, with colors ranging from deep blue (cooler regions) to bright yellow and orange (warmer regions). The pattern is grainy and speckled, representing the early universe's density fluctuations.
