

Hardwick Descroix, 7
Feb. 1. /64.

My dear Sir,

Tho' much pressed for time this morning
I am anxious to send you a extract from a letter
which I received on Saturday from one of our
very best observers Mr. Dawes - in which
he says -

I am much pleased to find that you con-
tinue to value your Swan Clark $5\frac{1}{2}$ inch or
higher. I cannot at all doubt that it is ca-
pable of doing all that is within the reach of
that aperture: & indeed I have found this
to be case with every Obj. of his which has
ever come under my observation. Now all
