

Hardw. Vic. 22 Jan. 1874

(81)

I am going to say "It is ~~to~~^{much} to be regretted that only a portion of the exquisite drawings of this great observer have as yet been copied in facsimile. Those in Monthly Nat. omit some of the most curious presentations of the globe [of Mars] & the reproduction by Practor does not profess minute accuracy." —

I, not this right (I know the part about Monthly Notices is). one line, please, by return

J. W. W.
