

I have two - the last dated 1871 - which I rather think Mr. Martin sent me - but, I having just asked L^d. Drubigh's permission to publish some of his family letters which my father had copied, he tells me they are printed in a Blue Book issued last year. Will that be the 3rd Report? If so, I can add it as such. or are there more published? -

My Chancery business is in Mr. Franquill - but going on. Most gladly would I have employed your uncle as my Sol^r - but as the Eccl. Com^{rs} Sol^{rs} were in communication with me, I thought it wd be matter of etiquette to employ them.

I am doing something to the MSS & shall soon D.V. be in press.

My nephew Henry Wyatt is here for a few days - a right nice fellow, with a mathematical

taste - he has made such progress at 17 or 18 has gained a scholarship of £50 at Jesus Coll. Camb. - & his country tutor (Webb a butcher's son of Monmouth - son. Mr. & Smith's prize man) advises him to go on for a Fellowship & take profits. Will you kindly say some day whether you think this a good plan? Is there demand enough for country tutors? I don't think he wd like to live at Cambridge. - I am neither a Camb. man nor a mathematician, & so am very incompetent to advise - but I don't think my namesake wd have given such counsel without knowing what he was about.

My wife's kind love

Yours very aff^{ly} friend

Cockatwenty.
