

Arundwick Vicarage, 13 Nov. / 76. (157) ~~S~~

The Telescope has been snapped up. But I am
not sure than another may not shortly be thrown
into the market. Shall I keep an eye upon it
for your friend? - I am to be the fortunate
possessor of the Dorpat Cat: reduced to most
valuably annotated by W. Bird, not only may
a 12 1/4 in Reflector be coming forward, but an unusually
perfect 5 in. ^{Munich} ~~Herz~~ achrom: separating as is said y² and
if so Airy's computation wants revising - or I suppose one
factor wants verbesserung. (the arbitrary one.) J. W. Webb
