

The Surgeon has just been here - a fresh man - & says I am going on as well as possible - for which I desire to be earnestly thankful - for my dear wife's sake as well as my own - for she has had a terrible time of anxiety as well as manual nursing.

I was looking the other day over one of Burnham's Cats in M Notices, & saw at the close of it a notice of a minute Neb. - I think he says a double neb. - I wish I could tell you exactly where to find it - but I fancy it is at the end of his first Cat. I wonder whether anybody has looked after this. Perhaps Lord Lindsay would back it spectroscopically - for I should not be a bit surprised if it turned out to be a cousin of my own little friend, Ex 4004.

My wife's kind love
Your very affectionate old friend
