

Now, if this is right, have I expressed it accurately enough for the simplest popular purpose, in the MS. I sent you? It seems to me right - but when you only understand a thing superficially it is so easy to make some misstatement without being aware of it - & that is what I am afraid of. — And fly to you about. —

And here, I am sorry to say, comes another great liberty taken with your kindraps. Would you do me the special favour to say whether the enclosed would hold water? There is no hurry about it. —

We have been sorely hunted, & house-cleaning drives us from home on Wed^g. evening so that our address on Thursday & Friday mornings would be

From the welcome discovery of my Book

I have found what I meant in an exceptional case of non-reflection at a polished surface - it would be in polarised light. Glad to have one Doakery, can amputated. —

No time yet to hunt up the reference to Gesta Dri in my Father's MSS. — Do forgive it.

My wife's best love - hopes you
Cook suits —

Ever yours very affct.
