

my wife being such a capital manager. —
Next month (June) I think w^c. kindly
manage a visit from you with convenience
— but do come in Augt. or better still
Sept^r. — & give us what notice you can. —

Meanwhile will you bestow another fa-
vour on a poor old beggar — who wants to
know what number of years of non-user
would extinguish a right of pasture on
a common? I am told that a right be-
longing to the Church Farm here is threat-
ened in this way. Of course I am not go-
ing to stand quietly by — but I wish to know
my ground before I move. —

Observatory in nice order. —

Our united best love —
